Advanced Strategic Planning Program According to Saudi Vision 2030 Training Course

Introduction

Advanced Strategic Planning Program According to Saudi Vision 2030 examines how organizations align their strategies, programmes, and performance measures with the Kingdom's national transformation agenda. This Training Course covers Vision 2030 pillars, Realization Programs, Vision Realization Offices, and National Transformation Program alignment. Participants study strategy maps, the Balanced Scorecard, OKRs, delivery unit methods, and performance dashboards used across Saudi public and private entities. Furthermore, the programme connects national ambition to institutional plans through strategy labs, alignment mapping, and delivery simulation. As a result, delegates leave able to build plans that genuinely serve Vision 2030 outcomes.

- Strategy and planning professionals in Saudi entities.
- Vision Realization Office staff and coordinators.

GENTEX® TRAINING CENTER

- Senior managers and department heads.
- Programme and initiative owners.
- Performance and transformation managers.
- Finance business partners and analysts.
- Consultants supporting Vision 2030 delivery.

Advanced Strategic Planning Program According to Saudi Vision 2030 Course Outlines

Day 1: Vision 2030 Foundations and Architecture

- Vision 2030 pillars: a vibrant society, a thriving economy, an ambitious nation.
- Strategic objectives and target indicators.
- Realization Programs and their scope.
- National Transformation Program themes and initiatives.
- Vision Realization Offices: roles and mandates.
- Alignment between national and institutional planning.
- Governance of national delivery and reporting.

Day 2: Analytical Foundations in the Saudi Context

- PESTLE for the Saudi economic and social environment.
- Porter's five forces and emerging sector dynamics.
- SWOT and TOWS applied to Saudi entities.
- Scenario planning under Vision 2030.
- Stakeholder mapping across public and private sectors.
- Benchmarking against regional and global peers.

- Strategic risk identification and assessment.

Day 3: Strategy Formulation and Alignment

- Vision, mission, and strategic objectives design.
- Objective cascade from national to institutional levels.
- Strategy maps and cause-and-effect logic.
- Balanced Scorecard perspectives for alignment.
- OKR design and KPI selection.
- Prioritisation, sequencing, and resource alignment.
- Business case development for initiatives.

Day 4: Execution, Delivery Units, and Measurement

- Delivery unit models and operating routines.
- Execution governance and review cadence.
- Performance dashboards and data quality.
- Initiative tracking and milestone control.
- Interdependency management across entities.
- Benefits realisation and impact measurement.
- Reporting to leadership and oversight bodies.

Day 5: Risks, Stakeholders, and Continuous Improvement

- Strategic risk registers and mitigation planning.
- Change management: Kotter and ADKAR in practice.
- Stakeholder engagement and communication planning.

- Corrective action and course correction methods.
- Capability building for sustained delivery.
- Review cycles and lessons learned.
- Personal action plan and continuous improvement.

Conclusion

By successfully completing Advanced Strategic Planning Program According to Saudi Vision 2030, participants will have acquired a practical command of Vision 2030 architecture, national alignment, strategy formulation, delivery unit operation, and performance reporting. They will know how to connect institutional plans to national outcomes, translate objectives into OKRs and KPIs, and keep initiatives on track through structured review. In addition, the course prepares delegates to manage risk, stakeholders, and interdependencies across entities. As a result, they return to work ready to plan and execute strategy that supports Vision 2030 delivery. Gentex Training Center delivers this Training Course with a practical, standards-based approach.
