Introduction

Good governance is the foundation of sustainable organizational success. The ISO 37000:2021 standard provides globally recognized guidance for governance of organizationshelping leaders ensure accountability, integrity, and transparency across decision-making processes.

This comprehensive 5-day program delivered by Gentex Training Center introduces participants to the principles, framework, and key practices of ISO 37000. It enables organizations to strengthen governance systems, improve stakeholder confidence, and align operations with ethical and strategic values.

Participants will explore how governance supports long-term value creation, risk oversight, and responsible leadership. The course emphasizes practical understanding, offering insights on how to design, implement, and evaluate effective governance structures that enhance performance and sustainability.

Certificate in ISO 37000:2021 Governance of Organizations Course Objectives

- Understand the purpose, scope, and key elements of ISO 37000:2021.

- Interpret the principles of good governance, including accountability, leadership, stewardship, and ethical behavior.

- Identify roles and responsibilities of governing bodies and executive management.

- Develop frameworks and policies that promote organizational integrity and stakeholder trust.

- Integrate governance principles into strategic planning, risk management, and performance monitoring.

- Evaluate the effectiveness of existing governance systems and recommend improvement actions.

- Foster a culture of transparency and compliance that supports sustainable development goals.
- Through discussions, group work, and practical examples, participants will gain valuable skills to strengthen governance and leadership excellence.

Course Methodology

This course uses interactive lectures, real-world case studies, practical workshops, and group discussions to ensure active learning and practical understanding of governance concepts.

Who Should Take This Course

- Board members and executive directors
- Compliance and governance officers
- Risk and internal control professionals
- Strategy and policy development managers
