

CHIEF OPERATING OFFICER (COO)

Amsterdam - Netherlands
09 - Nov 2026 - 13 - Nov 2026
\$6,000

GENTEX®
TRAINING CENTER

Introduction

In today's dynamic business environment, the Chief Operating Officer (COO) plays a pivotal role in driving operational excellence and ensuring an organization's smooth and efficient functioning. This intensive five-day program, offered by Gentex Training Center, equips aspiring and existing COOs with the essential knowledge, strategic thinking, and leadership skills necessary to excel in this critical role. Through a comprehensive exploration of key operational functions, strategic planning, and leadership best practices, participants gain the ability to optimize organizational processes, drive profitability, and contribute significantly to an organization's long-term success.

Chief Operating Officer (COO) Course Objectives:

- Develop a comprehensive understanding of the core responsibilities and strategic contributions of a COO.
- Master effective leadership strategies for motivating and inspiring operational teams.
- Cultivate strong analytical and problem-solving skills to address complex operational challenges.
- Gain in-depth knowledge of key operational areas, including supply chain management, production, and quality control.
- Develop a strategic approach to performance management and optimization of operational processes.
- Enhance financial literacy and understanding of key performance indicators (KPIs) for effective decision-making.
- Refine communication and collaboration skills to build strong relationships with internal and external stakeholders.
- Navigate the evolving technological landscape and leverage technology to improve operational efficiency.

Course Methodology

This interactive program utilizes a participant-centric approach that blends lectures, real-world case studies, group discussions, and practical simulations. Participants actively engage in strategic planning exercises, process improvement workshops, and leadership role-plays. Through collaborative learning and expert guidance from experienced instructors, participants refine their critical thinking and problem-solving skills, build confidence in their decision-making abilities, and gain valuable insights into the multifaceted role of a COO.

Who Should Take This Course

- Aspiring COOs seeking to develop the skills and knowledge necessary to excel in this role
- Existing COOs looking to refine their leadership and strategic planning capabilities
- Senior operational managers with leadership aspirations
- Business professionals seeking a deeper understanding of operational excellence principles
