

CREDIT RISK MANAGEMENT IN FINANCIAL INSTITUTIONS

London - UK
08 - Feb 2027 - 12 - Feb 2027
\$6,000

GENTEX[®]
TRAINING CENTER

Introduction

Credit risk is one of the most significant challenges financial institutions face. Managing credit risk effectively ensures financial stability, regulatory compliance, and long-term profitability. Institutions must assess borrower creditworthiness, monitor risk exposure, and implement mitigation strategies to protect assets and maintain operational resilience.

This five-day Credit Risk Management in Financial Institutions course, provided by Gentex Training Center, offers a comprehensive understanding of credit risk principles, assessment techniques, and risk mitigation strategies. Participants will explore best practices for managing credit risk, regulatory requirements, and tools for evaluating and reducing risk exposure. Through case studies and practical exercises, this course equips banking and finance professionals with the expertise needed to manage credit risks efficiently.

Credit Risk Management in Financial Institutions Course Objectives

- Understand the fundamentals of credit risk management in financial institutions.
- Identify key credit risk factors and their impact on financial stability.
- Learn how to assess borrower creditworthiness using financial analysis tools.
- Implement risk measurement techniques, including probability of default and loss given default.
- Apply credit risk mitigation strategies such as collateral management and guarantees.
- Comply with regulatory requirements, including Basel III guidelines.
- Utilize credit scoring models and risk-rating systems.
- Enhance decision-making processes using risk-based pricing methodologies.
- Develop early warning systems for detecting credit risk exposure.
