

# DOCUMENT MANAGEMENT AND FILING SYSTEMS

Amman - Jordan  
07 - Jun 2026 - 11 - Jun 2026  
\$5,800

**GENTEX**<sup>®</sup>  
TRAINING CENTER

## Introduction

In today's information age, effective document management and filing systems are crucial for any organization. Inefficient document handling can lead to lost time, wasted resources, and difficulty retrieving critical information. This intensive five-day program, offered by Gentex Training Center, equips participants with the knowledge and practical skills needed to organize and manage documents efficiently, ensuring information accessibility and regulatory compliance. Through a comprehensive exploration of filing systems, best practices, and hands-on exercises, participants gain the ability to design and implement robust document management systems, optimize workflow, and enhance overall organizational efficiency.

## Document Management and Filing Systems Course Objectives:

- Master core principles of document management and filing systems.
- Understand different filing methodologies (physical and electronic) and their applications.
- Develop a comprehensive understanding of document lifecycles, from creation to archiving.
- Implement best practices for document classification, indexing, and retrieval for efficient access.
- Explore document retention policies and legal requirements for information governance.
- Leverage technology solutions, such as Document Management Systems (DMS), to streamline document management processes.
- Develop strategies for migrating from paper-based systems to electronic document management systems.
- Analyze real-world case studies of successful document management implementations.
- Formulate a personalized action plan to design and implement an effective document management system within your organization.

## Course Methodology

This interactive program utilizes a participant-centric approach. It blends lectures from document management experts, interactive workshops, real-world case studies, group discussions, and practical exercises. Participants actively engage in exploring different filing methods, practicing document classification and indexing techniques, designing document retention schedules, utilizing document management software, and crafting personalized action plans for optimizing document management within their specific departments. Through experiential learning, participants gain the practical skills and theoretical knowledge needed to become document management champions, fostering a culture of information accessibility and organizational efficiency.

## Who Should Take This Course

- Administrative professionals, assistants, and records managers seeking to improve document management practices within their roles.
- Business process analysts and information governance professionals responsible for designing and implementing document management systems.
- Project managers and team leaders overseeing the transition from paper-based to electronic document management systems.
- Anyone interested in learning how to organize documents effectively, ensure information accessibility, and comply with document retention regulations.

## Document Management and Filing Systems Course Outline:

# LEARN BOLD. LEAD BEYOND

GENTEX Training Center LLC | Orlando - FL, USA  
Info@gentextraining.com

## Day 1: Understanding the Landscape: Document Management Fundamentals

- Unveiling the Importance of Document Management: Impact on Efficiency, Compliance, and Information Accessibility
- Exploring Different Filing Methodologies: Physical vs. Electronic Systems and Their Applications

## Day 2: The Lifecycle of a Document: Creation, Management, and Archiving

- Understanding Document Lifecycles: From Creation to Disposition and Everything in Between
- Implementing Best Practices for Document Classification, Indexing, and Retrieval Strategies

## Day 3: Complying with the Rules: Document Retention Policies and Legal Requirements

- Understanding Document Retention Requirements and Legal Considerations
- Developing a Comprehensive Document Retention Schedule for Regulatory Compliance

## Day 4: Embracing Technology: Leveraging Document Management Systems (DMS)

- Exploring Features and Benefits of Document Management Systems (DMS)
- Implementing Best Practices for Utilizing DMS Software for Efficient Document Management

## Day 5: Charting Your Course: Implementing Change and Building a Sustainable System

- Developing Strategies for Migrating from Paper-Based Systems to Electronic Document Management
- Formulating a Personalized Action Plan to Design and Implement a Document Management System Within Your Organization
- Building a Culture of Document Management: Encouraging User Adoption and Ongoing Improvement

### Conclusion

By successfully completing this comprehensive program offered by Gentex Training Center, participants gain the knowledge and practical skills needed to navigate the complexities of document management with confidence. They will be equipped to design and implement effective filing systems, leverage technology solutions, and ensure information accessibility for all stakeholders within their organizations. This enhanced knowledge empowers them to become key players in promoting information governance and driving organizational efficiency.
