Introduction

In today's complex business environment, ethical decision-making is paramount for fostering trust, ensuring regulatory compliance, and achieving sustainable success. This intensive five-day program, offered by Gentex Training Center, equips participants with the knowledge and skills to navigate ethical dilemmas effectively within the context of governance and compliance frameworks. Through an exploration of core ethical principles, stakeholder considerations, and practical decision-making models, participants gain the ability to confidently approach ethical challenges and promote a culture of integrity within their organizations.

Ethical Decision-Making in Governance and Compliance Course Objectives:

- Master core principles of ethical decision-making and their importance in governance and compliance practices.
- Develop a comprehensive understanding of key ethical frameworks and their application in real-world scenarios.
- Identify key stakeholders and their interests in ethical decision-making processes.
- Analyze potential ethical dilemmas within governance and compliance functions.
- Utilize frameworks and models for ethical decision-making, such as utilitarianism, rights theory, and justice theory.
- Employ critical thinking and analytical skills to evaluate complex ethical issues.
- Understand the impact of corporate culture and leadership behavior on ethical decision-making.
- Develop strategies to advocate for ethical conduct and address ethical concerns within an organization.
- Explore the role of governance and compliance frameworks in promoting ethical behavior.

GENTEX® TRAINING CENTER

- Analyze case studies and industry best practices for ethical decision-making in various sectors.
- Formulate a personalized action plan to champion ethical decision-making practices within your organization.

Course Methodology

This interactive program utilizes a participant-centric approach. It blends lectures from ethics and compliance experts, real-world case studies, group discussions, and role-playing exercises. Participants actively engage in ethical dilemma simulations, stakeholder analysis workshops, and practical application exercises. Through experiential learning, participants gain the confidence and tools needed to navigate ethical challenges with integrity and promote a strong ethical compass within their organizations.

Who Should Take This Course

- Board members, directors, and governance professionals seeking to strengthen their ethical decision-making capabilities.
- Compliance officers, risk management professionals, and legal professionals navigating ethical considerations in their roles.
- Managers and supervisors seeking to lead by example and promote a culture of ethical conduct within their teams.
- Business professionals involved in making critical decisions with potential ethical implications.
- Anyone aspiring to gain a competitive advantage through ethical business practices and strong corporate governance.
