

IT SERVICE MANAGEMENT BEST PRACTICES

Doha - Qatar
03 - May 2026 - 07 - May 2026
\$5,800

GENTEX[®]
TRAINING CENTER

Introduction

In today's technology-driven world, providing exceptional IT services is essential for organizational success. This intensive five-day program, offered by Gentex Training Center, equips IT professionals with the knowledge and practical skills to implement best practices in IT service management (ITSM). Through a comprehensive exploration of key frameworks, processes, and tools, participants gain the ability to optimize service delivery, improve user satisfaction, and ensure the effective alignment of IT services with business needs.

IT Service Management Best Practices Course

Objectives:

- Master the core principles and frameworks of IT service management (ITSM).
- Implement effective incident, problem, and change management processes.
- Leverage service request management strategies to meet user needs efficiently.
- Utilize service asset and configuration management (SACM) practices for accurate service delivery.
- Implement service level management (SLM) to define, measure, and improve service quality.
- Foster a culture of continuous service improvement (CSI) within the IT department.
- Utilize industry-standard ITSM tools and technologies for streamlined service management.
- Communicate effectively with stakeholders at all levels concerning IT service delivery.
- Measure and monitor the success of IT services and the impact on business outcomes.
- Develop a strategic approach to IT service management for long-term success.

Course Methodology

This interactive program utilizes a participant-centric approach that blends lectures, real-world case studies, group discussions, and practical exercises. Participants actively engage in incident and problem management simulations, service request process mapping activities, and service level agreement (SLA) development workshops. Through collaborative learning and expert guidance from experienced instructors, participants refine their problem-solving, communication, and analytical skills to excel in implementing best practices for IT service management.

Who Should Take This Course

- IT professionals seeking to enhance their ITSM knowledge and skills.
- IT service desk analysts and support personnel interested in improving service delivery.
- IT managers and directors responsible for overseeing IT service operations.
- Business leaders seeking a deeper understanding of ITSM and its benefits.
- Anyone aspiring to advance their career in IT service management.
