TRAINING CENTER

Introduction

Office management and executive secretarial skills play a vital role in ensuring smooth operations, effective communication, and professional organization within any organization. Professionals who master these competencies become indispensable contributors to business success. This five-day course, provided by Gentex Training Center, offers participants comprehensive knowledge and practical skills that enhance efficiency in office administration, decision support, and executive coordination. Through a balance of theory, applied exercises, and real-world examples, participants will strengthen their ability to manage modern office functions, improve time management, and support executives with confidence and professionalism.

Office Management and Executive Secretarial Course Objectives

- Understand the role and responsibilities of office managers and executive secretaries in supporting organizational leadership.
- Enhance organizational, planning, and scheduling skills to manage office operations efficiently.
- Apply effective business communication techniques to support executives and maintain professional correspondence.
- Develop advanced skills in handling confidential information, records management, and document control.
- Improve meeting management, travel coordination, and event preparation processes.
- Strengthen interpersonal skills for building strong professional relationships with executives, colleagues, and clients.
- Use modern tools, digital applications, and office technologies to streamline administrative tasks.

LEARN BOLD. LEAD BEYOND
