

SCALING UP: FROM STARTUP TO GROWTH

Paris - France

26 - Oct 2026 - 30 - Oct 2026

\$6,000

GENTEX®
TRAINING CENTER

Introduction

Transitioning from a startup to a growth-oriented organization is a complex yet essential phase for any business aiming for long-term success. Scaling up requires more than just expanding operations; it demands strategic planning, robust leadership, and efficient systems to ensure sustainable growth. Companies that master this transition effectively can enhance their market position, increase revenue, and maintain operational efficiency.

The Scaling Up: From Startup to Growth course by Gentex Training Center is meticulously designed to equip participants with the knowledge and tools to navigate this critical phase. The course delves into the strategic, operational, and cultural elements that drive successful scaling. Participants will learn how to refine their business models, build resilient teams, optimize processes, and effectively manage resources to achieve their growth objectives.

Scaling Up: From Startup to Growth Course Objectives

- Introduce the principles of scaling up businesses.
- Teach participants how to assess growth readiness and identify challenges.
- Provide strategies for refining business models to support expansion.
- Highlight the importance of creating scalable operational systems.
- Guide participants in establishing a culture of innovation and accountability.
- Explain methods for securing and managing financial resources during growth.
- Explore strategies for building and leading resilient teams.
- Offer tools for optimizing customer acquisition and retention strategies.
- Promote frameworks for evaluating performance and adjusting strategies as needed.
- Empower participants to achieve sustainable growth and long-term success.

Course Methodology

- Interactive lectures and guided discussions.
